## TALBOT COUNTY OFFICE OF PLANNING & ZONING

## PRELIMINARY CHECKLIST FOR MINOR & MAJOR SUBDIVISION

Surveyor:				
Checklist c	ompleted by:			
Plat review	ed by:			
	or will review each plat submission & application for completeness and accuracy. Each item riewed and checked as follows:			
Y = N/A = W =	Information Complete and Accurate Information Not Applicable Waiver of required information. Submit separate request in writing to Planning Officer.			
,, –				
1.0	REQUIRED REVISION PLAT NOTATIONS AND INFORMATION			
	nique characteristics of each parcel the Technical Advisory Committee may require additional a be submitted.			
	(Check 1 - 26 for Preliminary)			
	All notations and information as required 1 – 27 for Sketch plan.			
	Name of subdivision as approved by the Planning Office.			
3.	A statement located in prominent typeface, which reads			
1 10 20	"PRELIMINARY PLAT-NOT TO BE RECORDED"			
	Date of latest revision  Location of existing property lines, easements and rights-of-ways.			
	Location of zoning district lines and Chesapeake Critical Area Lines.			
	Location of existing buildings, structures and burial grounds with notation of buildings or			
1 1 1	sites with historical and/or architectural significance.			
8.	Location of existing buildings agricultural lands/fields, watercourses, wetlands (tidal and			
10	nontidal), forest, wooded areas, hedgerows, individual standing mature trees, 100 year			
100	floodplain, habitats of threatened and endangered species, steep slopes, significantly eroding			
16.1	shorelines and other significant natural features of the site as identified from mapping sources			
0	and as delineated in the field.			
9.	Location, alignment and width of proposed road and right-of-way locations, including names of all proposed roads.			
10	Proposed lot layout and proposed location of lot lines including lot dimensions, acreage and			
10.	building/development restriction lines. All lots shall be consecutively numbered.			
11.	Overview of the property showing all existing parcel(s) to include those which have already			
	been subdivided for the property. (If the subject parcel cannot be represented in its			
	entirely on the plat, show it in an inset map at a scale not to exceed 1"=600")			
12.	Proposed location, dimensions and size of lands to be designated for community open space,			
	public use, public dedication, reserved open space, remaining lands for future development,			
10	etc.			
	Location of all proposed well sites.			
14.	Location of all approved Sewage Disposal Areas including piezometer locations and/or location of water supply and sewage collection & disposal system			
15	Location of all building restriction lines including property line setbacks, Chesapeake Bay			
	Shoreline Development Buffer, stream buffer and tidal and nontidal wetland buffers.			
16.	Location and type of all proposed and existing monuments and sufficient data to readily			
	determine the location, length and bearing of all property lines.			
17.	Location and dimension of all proposed stormwater management facilities and drainage			
	easements.			
18.	18. Location and dimensions of all proposed utility facilities and easements.			
10	Topography at the same scales the preliminary plot at two (2) foot intervals provided			
19.	Topography at the same scales the preliminary plat at two (2) foot intervals, provided however, that if five (5) foot contour is adequate to show the surface configuration, the			

larger contour interval may be permitted.

Applicability and explanation of any drainage and utility easements, if any, Applicability and explanation of floodplain information, if any.  Applicability and explanation of any sediment and erosion control requirements, if any, Applicability and explanation of ownership and maintenance requirements for private roads, if any.  Applicability and explanation of ownership and maintenance requirements for private roads, if any.  Applicability and explanation of any state and/or federal nontidal wetland protection regulations affecting the subdivision.  Applicability and explanation of building permit issuance requirements for subdivisions with unfinished roads and other subdivision improvements.  Applicability and explanation of building permit issuance requirements for subdivisions with unfinished roads and other subdivision improvements.  Applicability and explanation of tree clearing and afforestation requirements, if any.  21. All other standard plat notes as applicable and described on the Standard Plat Note List and other plat notations as required by the Planning Officer, County Engineering or County Health Officer on a case-by- case basis.  22. For all waterfront lots, location of lateral lines and setbacks and harbor lines to define the useable water area for construction of water dependent facilities.  23. For lots in the Critical Area, note maximum lot coverage limitation for the entire development portion of the subdivision, calculations for total proposed lot coverage, and maximum allocation of lot coverage for all individual lots.  24. Appropriate surveyor signature block wording and space for notary signature and seal.  25. Appropriate signature block wording for County Engineer, County Health Officer and County Planning Officer or Planning Commission as appropriate.  APPLICANT FAILURE TO ADEQUATELY ADDRESS ALL APPLICATION AND CHECKLIST TIESMS, AND THOSE SPECIFICATIONS IN ACCORDANCE WITH CHAPTER 190 OF THE TALBOT COUNTY CODE, MAY RESULT IN A PROJECT BEING CONSIDERED INCOMPLETE OR INACCURATE, ANY SU	20.	Plat notations explaining the following:	
Applicability and explanation of any sediment and erosion control requirements, if any.  Applicability and explanation of ownership and maintenance requirements for private roads, if any.  Applicability and explanation of any state and/or federal nontidal wetland protection regulations affecting the subdivision.  Applicability and explanation of building permit issuance requirements for subdivisions with unfinished roads and other subdivision improvements.  Applicability and explanation of tree clearing and afforestation requirements, if any.  21. All other standard plat notes as applicable and described on the Standard Plat Note List and other plat notations as required by the Planning Officer, County Engineering or County Health Officer on a case-by-case basis.  22. For all waterfront lots, location of lateral lines and setbacks and harbor lines to define the useable water area for construction of water dependent facilities.  23. For lots in the Critical Area, note maximum lot coverage limitation for the entire development portion of the subdivision, calculations for total proposed lot coverage, and maximum allocation of lot coverage for all individual lots.  24.
